Allowable Subject Matter

1. Claims 1-17, 19-21 and 23 are allowed.
2. The following is an examiner's statement of reasons for allowance: Based on the 06/18/2007 BPAI decision (see particularly p. 5-6 of the decision) and the arguments presented in the 05/02/2006 Appeal Brief, the following limitations found in a control system and method of operating a control system are not found in the prior art nor are they obvious in view of the prior art:

“ a plurality of customized application programs for the automation device stored in the network device, wherein one customized application program of the plurality of customized application programs controls the automation device, and is selected by the network device in response to a specific application program request message for the one customized application program received at the network device and sent from the automation device as part of a bootstrap protocol” (as from claim 1)

“ providing a network device for storing a plurality of customized application programs to be executed on an automation device;...

transmitting a message by the automation device for requesting one customized application program of the plurality of customized application programs for the automation device as part of a bootstrap protocol;

selecting the one customized application program in response to the message for requesting one customized application program of the plurality of customized application programs;

transmitting the one customized application program to the automation device” (as from claim 12, similar limitations found in claim 17 and claim 21)

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
